We have reviewed the accompanying 31 March 2023 interim condensed financial statements of **American Express Saudi Arabia** ("the Company"), which comprises:

- the interim statement of profit or loss for the three-month period ended 31 March 2023;
- the interim statement of other comprehensive income for the three-month period ended 31 March 2023;

Management is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 'Interim Financial Reporting' ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" that is endorsed in the Kingdom of Saudi Arabia. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying 31 March 2023 interim condensed financial statements of the Company are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

12 FINANCIAL INSTRUMENTS AND FAIR VALUE

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Company. Financial instruments comprise financial asset and financial liabilities. Financial assets consist of bank balances and receivables. Financial liabilities consist of borrowings, payables, card members' margins and membership rewards.

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

NOTES TO THE INTERIM CONDENSED FINANCIAL STATEMENTS (continued) At 31 March 2023

12 FINANCIAL INSTRUMENTS AND FAIR VALUE (continued)

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

The Company's management determines the policies and procedures for both recurring fair value measurement, and for non-recurring measurement, such as assets held for distribution in a discontinued operation.

Due to the short term nature of the financial assets and liabilities, the management believes that the fair values of the financial assets and liabilities are not materially different from their carrying values. These are all classified within Level 3 of the fair value hierarchy except for cash and cash equivalents which are classified under level 1. There have been no transfers to and from Level 3 during the current period or prior year.
